Dear Customer - Welcome to the FOURTH EDITION of our “Road Map To School Bus Parts”. After over a decade of putting out this Catalog we are confident it will be useful in identifying and ordering your bus parts needs. Keep in mind, that parts shown in this catalog represent only a small portion of the thousands of parts and the many vendors that we represent. Our inventory includes parts for all makes of school buses, from bumper to bumper and top to bottom.

Call us for your bus parts needs, Monday through Friday between the hours of 7:30 A.M. to 5:30 P.M. CST. Local 713-672-6344, Toll Free 800-231-5061, e-mail sales@chalks.com., or download this catalog on the web at www.chalks.com.

Any use of other manufacturers names, part numbers, or trademarks are only for identification and information purposes and should only be used to assist the user in identifying the product or its offered replacement

The employees and their family’s thank you for your business.

SALES POLICY

PAYMENT TERMS
Net 10th PROX

FREIGHT POLICY
Pre-pay and add to invoice.

SHORTAGE OF AN ITEM
If a shortage of an item from your shipment occurs, contact CTP who will verify the shortage and re-ship the item prepaid.

DAMAGES
If damage is visible on your shipment, note this on the delivery receipt. If damage is concealed, contact CTP. An inspection must be made of the goods by the carrier. After inspection, a credit will be issued and the part will be either scrapped or returned to CTP.

CREDITING PROCEDURE
When a discrepancy is found in your shipment regarding a shortage or incorrect item sent, it must be reported to CTP within 48 hours. Any damage should be reported to the freight line or UPS and then process claim.

RETURN GOODS AUTHORIZATION
If goods need to be returned, contact any CTP salesman to authorize the return.

WARRANTY
All parts are covered by their respective manufacturer’s warranties. Our #1 goal is to keep your buses transporting kids. Call us and we will replace the failed part and respond to the failure within a reasonable length of time.

Baader Brown, OEM, Defroster Fan
Header Mount, 6 1/2” Dia., 820 CFM
Draws Only 3 AMPS, Ball Joint Suspensions,
CCW Rotation, Metal Blade & Guard, 12 Volt
Hole Spacing 2 1/2” X 7/8” (Both Center To Center Measurement)

Chalk’s Part #: 7200M-6015
Bergstrom, OEM, Defroster Fan
Header Mount, 6 1/2” Dia., 2 Speed
Clockwise Rotation, Metal Blade & Guard,
12 Volt, Hole Spacing 2 3/4” X 7/8”
(Both Center To Center Measurement)
HM 357 Motor Only

Chalk’s Part #: 7200M-6020
Bergstrom, OEM, Defroster Fan
Base Mount, 6 1/2” Dia., Clockwise
Rotation, Metal Blade & Guard, 12 Volt, 2 Speed
With Toggle Switch Mounted On Pedestal,
4 Bolts Square Pattern

Chalk’s Part #: 7200M-6030
B-Bird Special 2 Wire, Round Base
3 Hole, No Switch

Call 1-800-231-5061
Kaiser King Pin Qwik Kit™
for front axles.

Kaiser Spiral Steel Bushings were tested for 500,000 miles over a ten year period and proven to give 4 to 5 times more wear life with proper greasing.

CALL FOR APPLICATION: (CHALK’S # K70G Pictured)

Kaiser No-Ream Products
There Has To Be A Better Way

For the past twenty years, Kaiser has produced products for the trucking industry that do not require any REAMING.

The Kaiser steel-on-steel king pin repair kit uses a spiral steel bushing that requires no reaming. Install the bushing by simply twisting it into the spindle bore. This product has given users up to, and in many cases, more than a million trouble-free miles. Mechanics have said, "Kaiser installs easier and greases better than anything we have used before." Drivers like the way it steers as they drive down the road.

The new curvilinear king pin kit produced by Kaiser has steel backed bronze bushings that do not require reaming. The curvilinear pin presents a much larger contact or bearing support area than any other product on the market. This king pin kit was developed to improve life at an affordable price.

Kaiser produces spring pin repair kits that require no reaming for front spring suspensions. It is the only kit on the market with grease grooved pins, spiral steel bushings and engineered grease seals. This product improves spring life with grease grooved pins, bushings and better lubrication, reducing maintenance cost.

Reaming Versus No Reaming

Reaming requires skills and time that may not always be available when changing king pins. When the cost and maintenance of tooling for in-house reaming have been added, it could make king pin repairs more expensive than they ought to be. However, there is help from two king pin repair kits that require NO REAMING.

Kaiser Qwik kit with the no ream spiral steel bushings.

Kaiser PLUS with no ream steel backed bronze bushings.
Kaiser has applied these same no ream principles to front spring repairs, front eye and rear shackle.

Kaiser Qwik kit with grease grooved pins and sealed bushing assemblies.
Kaiser does the work for you at a fraction of the cost, plus Kaiser gives you a better fit and longer life.

**Rosco Hawk-Eye®**

The Elliptical Shape Provides A Large Field Of Vision With Minimal Distortion, While The Ball Stud Mount Offers Infinite Adjustment.

Mirror Housing Has Been Contoured For Stability And Appearance

Unversally Adjustable Ball Swivel Has Been Moved Closer To Center For Stability

**Chalks #:**
- 2360 - Hawk-Eye W/ Tunnel Mnt.
- 2365 - 12 1/2" x 11 Hawk-Eye Ball Stud
- 2365-T - 2365 Tinted
- 2365H - 2365 With Heater
- 3360H - Mini Hawk-Eye Tunnel Mnt, With Heater
- 3365 - 12 1/2" x 9 1/2" Mini Hawk-Eye
- 3365T, 3365TH - Brackets

**Features:**
- Complete Field Of View Coverage For FMVSS 111 Compliance
- Lower Overall Height Minimizes Obstruction
- Shallower Mirror Lens Reduces Image Distortion
- Ball Swivel Positioned Closer To Center For Greater Vibration Resistance.
- More Contoured Housing For Improved Stability
- Full Oval Shape Provides Larger Viewing Area For Driver
- Overall Height Is Equivalent To Competitions Quadrisphere While Providing Larger Viewing Area
- Economical Pricing

**Eye-Max LP™**

Asymmetric Cross View Mirror System- The Eye-Max LP™ Represents The Next Step In The Evolution Of Cross View Mirrors.

OEM SCHOOL BUS PARTS

BACK BUDDY WHEEL DOLLY

Struggling with heavy drums can hurt both your mechanics and your business. The Back Buddy® tool was designed to prevent injuries from awkward lifting and keep Comp. rates down. It rolls under, bolts on, and rolls out with the drum and/or hub assemblies, then lays over for service. Reassembly is quick and precise because the Back Buddy Tool angles for perfect hub alignment, eliminating seal damage and costly comebacks! Brake jobs go faster and more profitably and, best of all, no one has to pay the price of a ruined back.

Chalk’s Part #
350B + Adapters

☐ Cut out Back Problems
☐ No More Nicked or Cut Seals
☐ No Workman’s Comp Claims
☐ One man can do a complete brake job.

BACK BUDDY TOOL ADAPTER SETS
(order separately)

“CPR” Protector in Key Ring Case
CHILD REMINDER

Are you sure that your drivers are checking their bus for sleeping kids?

Included:
• Control Module With Alarm
• Wiring Harness
• Activation Light

Available But Not Included
• Deactivator Button
• CR2 - Button

Economical Electronic Child Reminder. The Drivers must check the bus before they leave, and deactivate the system or the bus horn will sound.

THE CHILD REMINDER SYSTEM
• MAKES SURE THAT NO SLEEPING CHILD IS LEFT ON BUS.
• NO PHONE CALLS FROM FRANTIC PARENTS ASKING “WHERE IS MY CHILD?”.
• NO TV REPORTER ASKING A “NO WIN” QUESTION.
• THE DRIVER MUST CHECK THE BUS BEFORE HE OR SHE LEAVES, OR EVERYONE WILL KNOW THEY DID NOT DO THEIR JOB, AND CHECK THE BUS.
• AN ELECTRONIC DEVICE THAT IS EASY TO INSTALL AND ECONOMICAL.

1-800-231-5061 www.chalks.com 713-672-6344
CLEVER LEVER
TIRE & WHEEL CADDIE

- SAFER - The Clever Lever® Tire & Wheel Caddie helps prevent back injury. And that prevents downtime and expensive insurance claims. The Clever Lever® can pay for itself almost immediately in reduced medical and man-hour costs.

- EASIER - Just roll the Clever Lever® Tire & Wheel Caddie under the tire, then lift and pull out the tire. That's it. No struggling. No straining. No wasted time.

- FASTER - The Clever Lever® Tire & Wheel Caddie lets you pull tires up to 300 lbs. by yourself. To replace a tire, simply push it back in, then rotate and tilt the tire for quick alignment with studs. Now one person can do the job in half the time.

- VERSATILE - A low-profile design allows The Clever Lever® Tire & Wheel Caddie to fit under more sizes of tires. Plus, the Clever Lever® comes in two models that fit every thing from light/medium-duty pickups to heavy-duty tractor-trailers.

Chalk’s Part #: MD-22 - for Tire Dia. 24” - 36”
82312 - for Tire Dia. 36” - 48” (SCHOOL BUS)
These are just a few -- We have lots more...

FIRE EXTINGUISHERS

This Is What The Texas Specification States About Fire Extinguisher.

Standard Fire Extinguishers: Each Bus Shall Be Equipped With At Least One Refillable Stored Pressure Multipurpose Dry Chemical Type (Or Approved Equal) Fire Extinguisher Of Minimum Five Pound (5 Lb.) Capacity, Mounted In An Extinguisher Manufacturer’s Automotive Type Bracket And Located In The Driver’s Compartment In Full View Of And Readily Accessible To The Driver. The Fire Extinguisher Shall Bear The Underwriters Laboratory Listing Mark Of Not Less Than 2A 20-B:C Rating.

Extinguisher Shall Be Furnished With A Hose, Pressure Gauge, And Metal Head.

Texas Specification No. 070-SB-D8 Effective Date: January 1, 1998.

TRIANGLE FLARE KIT

Chalk’s Part #: 793
Bracket For Triangle Flare Kit
• Bracket For Easy Storage Of The Triangle Flare Kit
• Can Be Mounted In Vertical Or Horizontal Position
• Made Of Galvanized Steel With Velcro Straps. Metal Straps Also Available.
• No More Screwing The Flare Box To The Floor

Chalk’s Part #: 798
Set Of Three Complete Triangle Units
• Meets FMVSS 125 Standards
• Triangle Unfolds & Locks Together
• Non-Skid Heavy Base Withstands Strong Winds
• Reflex Reflector Strips Form Border For Nighttime Visibility
  Fluorescent Orange Inner Triangle For Daytime Warning
• Housing In Strong, Heavy Duty Box - 18” X 5” X 5”
3M REFLECTIVE TAPE

Drivers react to what they can see, and 3M reflective tape provides faster, more accurate decision-making, by providing better visual information.

NOW MAKE DAYTIME TAPE “SHINE” WITH FLORESCENT DIAMOND GRADE

SCHOOL BUS

Chalk’s Part #: SB44X10DG  (44” W x 10” T)
Use this 440 sq. inch sign front/back. Made of 3M Diamond Grade material and 8” Block Letters. You can’t paint “School Bus” on the front of your bus for what this sign costs.

SURROUND YOUR BUS WITH REFLECTIVE TAPE FOR SAFETY:

Adjustable Restraining Vest

Certified to take the place of a car seat when used in conjunction with a seat belt. This Harness meets FMVSS 213 when used with a safety belt. The Harness comes in 3 color coded sizes: small, medium, and large. Each size has 2 separate zippered inserts that give you the ability to adjust to almost any size child. Set complete with Vest, Straps, Inserts.

**SMALL**
Vest; 20 -90 Lbs
*Part # BR-22AI/C*
Crotch Strap Sewn into Vest

**MEDIUM**
Vest; 20 - 165 Lbs
*Part # BR-30AI*
CS30603M - Retrofit
Crotch Strap
BR30AI/C C-Strip
Sewn into Vest

**LARGE**
Vest; 20 - 165 Lbs
*Part # BR-38AI*
CS30603L - Retrofit
Crotch Strap
BR38AI/C, C-Strip
Sewn into Vest

*WARNING:* Vest Must Only Be Used On School bus Seats. Entire Seat Directly Behind Must be Unoccupied Or Have Secure Occupants

- **Recommended Replacement After 5 years in Service**

  **Zippers are on the back to keep out of reach of “busy little hands”.**

  **Crotch strap available to keep kids from sliding down and out of vest.**

Call 1-800-231-5061
Little People Restraint System

Chalk's Part #: QF-100  
(One Chest Size Fits All)

Over The Seat Strap (Only)  
Chalk's Part #: PAR-105

Our "Little People Restraint System" Is Designed To Transport Pre-School Or Handicapped Children Safely And Comfortably. It Can Be Easily Installed On Any Standard Seat. These Restraint Harnesses Are Not Seat Belts, Nor Are They Designed To Provide Protection In The Event Of A Collision Or Sudden Stop.

How to Install “Little People Restraint System”

NOTES
Our Over the Shoulder Harness is designed and tested to meet FMVSS-213 standard, along with FMVSS-302 flammability requirements. The Harness must be used with an existing lap belt in order to meet the FMVSS-213 Standard.

Over the Shoulder Harness Installation
Part No:
Y8103-1AHB: Adult Hi Back (New York) ; 90-165 lbs; 18 1/2” - 29”
Y8103-1ALB: Adult Low Back (Standard) 90-165 lbs;
Y8103-1CHB: Child Hi Back(New York) ; 20-90 lbs
Y8103-1CLB: Child Low Back (Standard) 20-90 lbs; 11 1/2” - 18”

The Over the Shoulder Harness is an added way to give extra upper body support when being transported in a school bus. Unbuckle existing vehicle seat belt, lift bench seat and insert the tongue part of the buckle end between seat cushion and backrest, leaving the 1 1/2” webbing (crotch strap) lay on the seat cushion. Lay the two looped ends over the top on the seat back. Buckle the unit on the backside of the seat back.
SEAT BELTS - SAFETY VESTS - RELATED PARTS

BESI, Inc. PRO-TECH III

Manufactured in the USA and dynamically test certified to meet FMVSS213 Standards

Padded head and lumbar areas

Adjustable shoulder strap to fit child

Does not require the use of a lap belt or seat belt ready seat

Convenient 6 point adjustability as well as a color coded harness

Seat accommodates children 20-90 lbs Up to 51” Tall

Chalk’s Part #: CSB-6000

Comfortable and form fitting seat area, constructed of memory foam to help keep the child in place

Harness is constructed of heavy duty certified webbing and hardware components. Pad is constructed of easy clean fire block fabric and R/F welded to prevent fluid penetration as well as bacterial growth saving cost of replacement pads, easy washing

- FITS CHILDREN 20 - 90 LBS AND UP TO 51” TALL, MAX WAIST 30.5”
- FITS CURRENT SEAT
- EASY TO USE WITH CURRENT HIGH AND LOW BACK
- NO LAP OR SHOULDER BELT REQUIRED
- MEETS FMVSS 213 STANDARDS
- 3 POINT HOOK UP

Made By Q’Straint® The Restraint People.
This Large Storage Bag Is To Be Mounted On The Wall. It Is Made Of A Heavy Tear Resistant Material, Water Proof With Velcro Closures.
Dimensions: 15” H X 11 1/2” W X 3 1/2” D
SAFETY BELT BUCKLE GUARD

DIRECTIONS FOR USE

ON STANDARD SEAT BELTS OR CHILD SAFETY SEATS

1) Slip BUCKLE GUARD over the button side of any standard back belt buckle.

2) To buckle, insert metal latch plate through the slot in BUCKLE GUARD. The buckle is now locked, the release button is covered.

3) To release BUCKLE GUARD, remove child resistant safety cap by PULLING AND TURNING at the same time. This will expose top release button. If the seat belt has a front release button, remove cap, separate BUCKLE GUARD and press button as usual.

CHILD SAFETY SEATS: Use BUCKLE GUARD on the automobile seat belt to assure the safety seat is properly secured to the automobile seat.

NOTE: Replace cap on BUCKLE GUARD when not in use.

REMEMBER A CHILD MAY REQUIRE ASSISTANCE REMOVING BUCKLE GUARD IN THE EVENT OF AN EMERGENCY. NEVER LEAVE A CHILD UNATTENDED.

FEATURES:

- LONG-LIFE MOTOR & GEARS
- FLUSH FACE IS EASY TO CLEAN
- SMOOTH, SLICK EXTERIOR SURFACES
- NEVER NEEDS PAINT OR LUBRICATION
- ALL COMPONENTS TOTALLY RUST-PROOF
- FULLY INTERCHANGEABLE WITH ALL EXISTING DESIGNS
- LEDS SHOULD LAST FOREVER
- EASY TO SERVICE IF NEEDED
- FEWER MOVING PARTS
- LIGHTER-WEIGHT

Transpec’s Revolutionary New Design Uses High-Visibility, Light Emitting Diodes (LEDs) That Flash And Spell Out The Word “Stop”.

The New Design Is Virtually Flat To Resist The Accumulation Of Dirt, Snow, And Ice And To Allow Quick And Easy Cleaning.

In Addition, This New State-Of-The-Art Design Encloses All Wiring And Mechanical Parts In A Good-Looking, Sealed And Tamper-Proof Housing That Protects Them From Both Vandalism And The Elements.

Every Component Of Transpec’s New Safety Stop Is Absolutely Rust-Proof, And Never Requires Paint, Lubrication, Or Any Other Kind Of Regularly-Scheduled Maintenance.

Transpec Also Offers A Conventional Model Stop Arm Design That Features Flush Mounted Flashing Red Lights Instead Of The LEDs.

The Conventional Model Also Features A Smooth, Flush Surface For Easy Cleaning.

TRANSPEC SAFETY CROSS

The more dependable your crossing control arm is, the safer your kids are.

CHALK’S PART #: 4000-000-E11
Double Pole W/Extrusion Assembly
Double Pole W/Extrusion 4000-004
Extrusion only 4000-020

CHALK’S PART #: 4000-000-E11 FL
(Freightliner/Thomas)

CHALK’S PART #: 4000-200-E11
Double Pole Assembly
Double Pole Only 4000-003

Our Mechanism is Dependable:
• Weather Resistant Motor Housing
• Stronger Motors And Gears
• 100% Corrosion Proof Components
• Requires No Paint Or Lubrication
• Custom Bumper Mounting Brackets

Our Crossing Gates Are Rugged:
• Virtually Indestructible
• Enhanced Visibility Options
• Lock In Tight To The Bumper
• Maintains Shape

Note: For New Installation
Bracket Bumper Assembly Part #
Differs Per Bus Mfg. ie: IHC is 4000-005

Note: It’s recommended that replacement should be made in pairs for maximum halogen headlamp lighting benefits.
WHAT DO YOU RECEIVE WHEN YOU PURCHASE BESI SEAT COVERS, LICHTER FOAM, AND CHALK’S TRUCK PARTS, THE “OEM” TEAM!

CHALK’S TRUCK PARTS represents BESI Seat Covers and LICHTER Foam Products in Texas and the Southwest.

BESI SEAT COVERS:
1. “OEM” (original equipment manufacture) is what came on your bus from the factory. They have a glove like fit, no wrinkles or floppy corners.
2. Meets FMVSS 222 and 302. These are the FEDERAL STANDARDS that relate to impact and fire standards inside the bus.
3. 1 year warranty on workmanship.
4. Along with the FMVSS 302 burn test, our covers also meet the BAG BURN TEST, ATH-891 (Fire block), Kentucky bus specifications, and FAR-25-853B (Fire block).
5. #92 Bonded Kevlar Thread using a lock stitch sew pattern at 6 stitches per inch in used to insure that the BESI Seat Covers are truly “FIRE BLOCK”.
6. A tag with the part number is sewn into the seam for positive identification and verification that this cover meets the applicable FMVSS standard.
7. Factory sewn to insure the highest degree of quality Microban® for Antimicrobial Protection, inhibits growth of micro organisms
8. Colors will match what comes on the bus because this is the factory that provided them originally.

LICHTER FOAM PRODUCTS:
1. The “OEMs” chose to use LICHER Foam on their buses because of their quality.
2. FVMSS 222 and 302 (impact and fire) are met to insure that the school district’s riders are protected.
3. The back Foam is tested in 66 different places on the critical backside to insure that the Foam you purchase meets FMVSS 222 crush test. The passengers are compartmentalized.
4. 1 year warranty of Foam against failure due to workmanship.
5. The Foam is cut with modern computer-state-of-the-art technology to insure the perfect fit every time.
6. The manufacturing of Foam products is all that LICHER does, this insures that they can concentrate entirely on making the very best Foam products for your buses.
7. Our Foam and glue are designed together so that they meet the critical FMVSS 302 fire block test.

COMPARE THESE POINTS AGAINST THE PRODUCTS YOU ARE NOW PURCHASING. If your present seat covers and Foam do not have these features, “shouldn’t they”?

IT IS THE SCHOOL DISTRICT’S RESPONSIBILITY TO MAKE SURE THESE 2 VERY CRITICAL PRODUCTS MEET THE FMVSS REGULATIONS.

Is your present supplier able to put these elements of quality in writing?

Call 1-800-231-5061    www.chalks.com    713-672-6344
SEAT COVERS

BESI MANUFACTURING™

42 oz. Standard Material:
BESI’S school bus upholstery fabric meets the requirements of the national minimum standard for school bus seating. It is a 42 ounce equivalent in physical properties utilizing jersey knit backing and meets the requirements of FMVSS 302 - fire retardant standard, and FMVSS 222 - impact standard, when used in conjunction with OEM foam.
Sewn with #92 nylon thread using a lock stitch sew pattern at 6 stitches per inch. Guardian with Microban® antimicrobial thread protection inhibits micro organisms. All ends are back stitched.

Proform/Prevaill® fire Block material:
Fire block covers passed all of the following burn tests: FMVSS302, Bag burn test, Ath-891 (fireblock), Ky. bus spec., and FAR-25-853B (fireblock).
Covers are sewn with #92 bonded kevlar thread using a lock stitch sew pattern at 6 stitches per inch. All ends are back stitched.

| Weight Per Square Yard | 26.0 oz. |
| Coating Weight Per Square Yard | 18.5 oz. |
| Fabric Weight Per Square Yard | 7.5 oz. |

Kevlar 52 oz. Material:
Besi school bus upholstery fabric meets the requirements of the national minimum standard for school bus seating. It is a 52 ounce equivalent in physical properties utilizing jersey knit backing and meets the requirements of FMVSS 302 - fire retardant standards, and FMVSS 222 - impact standards, when used in conjunction with OEM foam.
Sewn with #92 nylon thread using a lock stitch sew pattern at 6 stitches per inch. Guardian with Microban® antimicrobial thread protection inhibits micro organisms. All ends are back stitched.

Velcro Seat Covers:
BESI’s innovative velcro seat covers with Velcro strips are easy to install, in minutes. No staples, screws, or rivets.

BCE-400
TRUCK BRAKE WASHER

for heavy duty trucks, buses and off road equipment

Clayton’s Truck Brake Washer is engineered to clean the brakes on heavy duty vehicles the way technicians really work on these vehicles - on the floor!

The “OSHA Preferred” Method for Dust Control Mandated by OSHA’s Final Rule on Asbestos
(29 CFR 1910.1001 --- Compliance Date is April 10, 1995)

Low Profile
- Only 11 inches high
- Easily rolls under truck axles

Maneuverable
- 4-inch industrial casters
- Won’t hang up on wires or floor grates

Tools
- Injector Nozzle
- Flo-Thru Brush

Large Capacity
- Big 6-1/2 - gallon cleaning solution capacity

Compressed Air Driven Pump
- No electricity needed

T-N-T PLUS Cuts Grease
- Cleans grease and oil
- Superior to mineral spirits
- Biodegradable, non flammable and non toxic

Fully Assembled
- No assembly required
- Connect to air source and start cleaning

Includes Supplies
- 5 gallon T-N-T PLUS Cleaner/Degreaser
- 3 Primary Microfilters and 1 Oil Magnet

CareFree Disposal System
- Follow operating instructions
- Toss filters in the trash and pour wastewater into shop sanitary drain

One Year Warranty

PakPress™
Portable Wheel Stud Remover and Installer

Fleet maintenance should never be without this tool that brings the power of a 10-ton shop press right to the truck. But what is most impressive, the PakPress™ lets you remove and install studs without removing the hub. A two hour job gets done in twenty minutes, with no risk of damaging seals or bearings. The PakPress™ is portable, it’s powerful, it’s tough, and it’s easy to use. Any mechanic can use it and get the job done right in minutes.

PakPress™
Stock # 1-PPF wheel stud remover & installer (less pump) Includes PakPress™ frame and 10-ton cylinder

PakPress™
Stock # 1-PPK wheel stud remover and installer Includes PakPress™ frame, 10-ton cylinder and PPHP power kit

PakPress™
Stock # PPHP optional power kit 10,000 psi air/hydraulic pump, 6’ hose, tee adapter, glycerin-filled gauge

Super-Tough Nickel Alloy, Cast And Heat-Treated For Durability.

Take A Stud Off, Or Put One On, In Just Ten Seconds.
ENGINE OIL DRAIN VALVE
THE ULTIMATE OIL CHANGE

Introducing the best way to change oil, the Engine Oil Drain Valve. Install this valve and you can drain your engine oil without tools and without mess. Just lift the lever of this solid brass ball valve and give it a quarter turn to open it. Return the lever to its original position and it locks closed, double sealed to prevent leakage.

The Engine Oil Drain Valve’s patented design combines the convenience of easy operation with the security of a safety lock. To open, just lift the control lever and turn 90°. To close, simply turn the lever back 90° until it snaps into its original position. The stainless steel spring prevents accidental opening.

THE FEMCO NO-SPILL DRAIN SYSTEM
HOT OIL CHANGES MADE FAST, CLEAN, AND SAFE

YOUR NEXT OIL CHANGE IS AS EASY AS 1-2-3
1. REPLACE FACTORY PLUG
2. WHEN READY TO CHANGE OIL REMOVE DUST CAP - SPRING LOADED VALVE REMAINS CLOSED UNTIL DRAINER IS CONNECTED
3. THREAD DRAINER ONTO FITTING - DRAIN BY GRAVITY OR SUCTION

Specify Size And “Screw On” Or “Speed Click”

We Have Over 150 Different Sizes In Standard Or Metric Threads.

DIAGNOSTICS
PC INTEGRATION

TURN KEY OR PIECEMEAL
Reduces Maintenance Costs By:
- Increasing Utilization Of Company Technicians By Reducing Outsourced Maintenance
- Reducing Unnecessary Outside Expenses
- Improving Technician Productivity By Making Their Trouble-Shooting And Repair Process Efficient
- Reducing Technician Downtime By Eliminating OEM Diagnostic Software Conflicts
- A Help Desk For Tech Support And Trouble-Shooting Provided By Nexiq
- Ensuring Only Necessary Diagnostic Software Updates Are Purchased, Reducing Software Expenses
- Reducing Multiple PC-To-Vehicle Interfaces With NEXIQ’s Magikey® Interface
- Maximizes Revenue Generation Potential Of Your Fleet By Reducing Downtime
- Promotes A Common Set Of Diagnostic Tools Throughout The Maintenance Organization
- Provides Assistance And Guidance With OEM PC-Based Software

FEATURES
- OEM Diagnostic Software
- Integration, Registration, Test And Validation Service
- Nexiq Diagnostic Toolchest; A User Friendly Interface That Consolidates The Selection Of All PC Applications From A Single Screen
- Heavy Duty And OBD-II Pc-To-Vehicle
- PC Sales, Maintenance And Upgrade Support
- Tech Support Provided By The NEXIQ Help Desk Operated 10 Hours Daily

DESCRIPTION:
PC Integration Is An Integration Of Heavy Duty And OBD-II Based Engine, Brake And Transmission OEM Diagnostic Software Products Applicable To A Customer’s Fleet Onto One PC With A Universal Adapter For Interfacing The Vehicle.
Pro-Link iQ™ Kit - Smarter. Easier. Essential.

The recognized standard in diagnostic scan tools.

Pro-Link iQ is designed to help diagnose engine, brake, and transmission failures. This easy-to-use, advanced tool is engineered to support today’s commercial vehicles as well as the more complex vehicles of tomorrow. Using clear menus and message screens, the Pro-Link iQ guides technicians through the most complicated vehicle tests.

Key functions and features:
- Large, sharp color graphics
- Information clearly displayed
- Fast data downloads
- Portable and powerful

Kit includes:
- Pro-Link iQ scan tool
- iQ Heavy-Duty Standard application
- Power and data cable
- Power supply
- 6-pin Deutsch adapter
- 9-pin Deutsch adapter
- 2-cell battery pack
- CD manual/driver
- Stylus pen
- Carrying case
Pocket iQ™ - The quick and convenient way to gather critical truck performance data.

Whether covering a large fleet or monitoring just a truck or two, the compact Pocket iQ makes it easy to collect operating information. With its advanced capabilities, touchscreen technology, and clear message and menu screens, the Pocket iQ reports critical engine, brake, and transmission functions. It also stores and accesses vital facts and figures, fault codes, and more. In addition, the Pocket iQ can be customized to gather only the specific data a fleet needs. Collect as much—or as little—information as wanted. Smart and versatile, the Pocket iQ puts data at your fingertips.

Key functions and features:
• Monitors all vehicle data
• Checks engine speed and load, pressures, temperatures, and more
• Reads active fault codes
• Reads and clears inactive fault codes
• Displays trip data
• Collects and stores data from multiple vehicles
• Stores data in PDF or text format
• Supports J1708 and J1939 communication

Kit includes:
• Pocket iQ scan tool
• Heavy Duty Standard
• 6-pin Deutsch adapter
• 9-pin Deutsch adapter
• CD manual/driver
• Stylus pen
• Carrying case
Pocket iQ™ Complete ABS Kit

Monitor tractor/trailer anti-lock brake systems.
Versatile and reliable, the Complete ABS Kit is the all-inclusive diagnostic brake tool that works with popular anti-lock brake systems (ABS), including Meritor WABCO®, Bendix®, Wabash, Haldex, and Eaton.

Capabilities:
- Test trailer ABS systems with PLC communications
- Auto-detect the OEM’s ECU system configuration
- Reads active fault codes
- Reads and clears inactive fault codes
- Actuate modulators and valves
- Test the brake retarder relay cycle

Interfaces with these systems:
- Bendix EC-60, TABS 6, EC-30, EC-30T, and EC-17
- Meritor WABCO Easy-Stop and Enhanced Easy-Stop
- Meritor WABCO D&E Series Tractor
- Haldex PLC, PLC Plus, and PLC Select
- Eaton GEN4 and GEN5
- Wabash National MBS-1P and MBS-2

Note: Kit includes J560 PLC Adapter—(PN 602020)

Buy it all or as much as you need:
- Pocket iQ ABS Kit, includes: Pocket iQ, ABS Suite, J560 PLC Adapter PN 692021
- ABS Kit, includes: ABS Suite, J560 PLC Adapter—PN 692020
- ABS Suite, PN 892021
- J560 PLC Adapter—PN 602020 (can be purchased separately)
USB-Link™ 2
MAKE THE CONNECTION EASIER AND EVEN BETTER THAN EVER.
The USB-Link 2, the next generation from NEXIQ Technologies™, has arrived. Dependable and rugged, the new USB-Link 2 is five times faster than its predecessor. It has sixteen times more random access memory than the old USB-Link, and it supports heavier bus loads on simultaneous channels. It also includes a new Bluetooth® module with an enhanced data rate to support wireless communication (500K b/s J1939). We've upgraded the USB connector to a more robust, automotive grade connector with a latching mechanism. The USB-Link 2 is compatible with a wide range of OEM software applications.

VEHICLE NETWORK PROTOCOL SUPPORT
- CAN / J1939 / ISO15765 – 250K, 500 K, 1M b/s with Auto Baud detection (3 channels)
- Single wire CAN (SWCAN)
- ISO 11898-3 Fault Tolerant CAN (FTCAN)
- J1708
- J1850 VPW (Class 2)
- J1850 PWM (SCP)
- ISO 9141 / KWP2000 (ISO 14230) K/L line
- ALDL 9600 and 8192 baud
- ATEC 160 baud

USB-Link™ 2 Comes With:
- Latching USB Cable
- 6- and 9-pin Deutsch Adapter

OPERATING SYSTEM SUPPORT
- Windows® Vehicle Communication API
  – RP1210 a/b/c
  – J2534 (2004 draft)
  – J2534-1 partial implementation (commercial vehicle-focused)

- PC Operating System Compatibility
  – Windows XP SP3
  – Windows 7 (32 & 64 bit)
  – Windows 8 (32 & 64 bit)

- Interfaces to Computing Platforms
  – USB 2.0
  – Bluetooth® 2.1 + EDR

**ROUTE CHANGER™**

Helping Kids Find the Right Bus Safely

**60% LARGER DIGITS THAN CLASSIC MODEL**

![](image)

**ROUTE CHANGER™ XL**

- **RT# 43**
  - **Bus** 4352
  - **Route** 4352
  - **Placement:** Interior of bus window
  - **Hardware:** Suction cups, black rubber bumper feet
  - **Distinctive Feature:** Easily moved to any window
  - **Part Number:** RCXL-SC2 (2 Digits)
    - RCXL-SC3 (3 Digits)
    - RCXL-SC4 (4 Digits)

- **RT# 43**
  - **Bus** 4352
  - **Route** 4352
  - **Placement:** Hinges to exterior of bus
  - **Hardware:** Stainless steel spring hinges, screws, snap socket & stud
  - **Distinctive Feature:** Extra secure attachment to bus
  - **Part Number:** RCXL-H2 (2 Digits)
    - RCXL-H3 (3 Digits)
    - RCXL-H4 (4 Digits)

**ROUTE CHANGER™ CLASSIC**

- **RT# 43**
  - **Bus** 4352
  - **Route** 4352
  - **Playback:** Interior of bus window
  - **Hardware:** Suction cups, black rubber bumper feet
  - **Distinctive Feature:** Easily moved to any window
  - **Part Number:** RC-SC2 (2 Digits)
    - RC-SC3 (3 Digits)
    - RC-SC4 (4 Digits)

- **RT# 43**
  - **Bus** 4352
  - **Route** 4352
  - **Placement:** Hinges to exterior of bus
  - **Hardware:** Stainless steel spring hinge, screws, snap socket & stud
  - **Distinctive Feature:** Extra secure attachment to bus
  - **Part Number:** RC-H2 (2 Digits)
    - RC-H3 (3 Digits)
    - RC-H4 (4 Digits)

*Unit Specifications: Lightweight, durable black plastic with white changeable digits.

**XL Dimensions:** 4 digit = 7" x 1 1/2" W, 3 digit = 7" x 9 1/2" W, 2 digit = 7" x 7" W.

**Classic Dimensions:** 4 digit = 7" x 10 1/2" W, 3 digit = 7" x 8 1/2" W, 2 digit = 7" x 6" W.

Headers: Designate standard headers by adding "R" to the end of part number for RT# / ROUTE or "B" for BUS / BUS # (i.e. RC-H4R).

---

**Bus Empty Signs**

The **Bus Empty** Sign helps prevent leaving an unattended child on a bus. The sign is displayed in the rear window requiring the driver to walk through the bus to visually check for children.

- **EB-1:** The one-sided **Bus Empty** Sign can be carried to the back of the bus at the end of the shift, to be displayed in the rear window.
  - **Dimensions:** 9"W x 7.75"H
  - **Part Number:** EB-1

- **EB-2:** The two-sided **Bus Empty / In Use** Sign remains in the window and is changed from "In Use" to "Bus Empty" at the end of the shift. Keyholes allow changing without removing suction cups from window.
  - **Dimensions:** 9"W x 7.75"H
  - **Part Number:** EB-2

- **EB-3:** The Magnetic **Bus Empty** Sign is a one-sided unit attached to the bus body above the rear window.
  - **Dimensions:** 7.75"W x 9"H
  - **Part Number:** EB-3

The Allison 1000/2000/3000 Series Transmissions introduce the superior performance of Electronic Controls

What makes these fully automatic 5-speed overdrive transmissions with lockup so advanced is a powerful 32-bit microprocessor. It stays in constant communication with the engine to determine the exact shift point for maximum performance.

Chalk’s Has Diagnostic Software For Allison Transmissions

FE200637-020-05 Length 20”
Lap Belt Extension

The Parallel Lap Belts attach directly to the floor track or plates, and provide an occupant restraint system that secures the passenger separately and independently from the mobility aid securement system.

The Integrated Lap Belt attaches directly to the rear strap assemblies of the mobility aid securement system. It provides an occupant restraint system that is an “integrated” part of the mobility aid securement and is dependent upon the strength of the securement system for its restraint capability.

Quick Strap Can Be Attached To Structural Frame Of Wheelchair
Q’Straint is proud to introduce the newest generation of Q’Straint wheelchair and occupant restraint systems. The QRT™ retractable securement systems are the simplest, easiest, most universal and of course the safest retractable systems in the industry. The QRT™ meets or exceeds all ADA and FMVSS requirements.

The QRT™ is perfectly designed for all types of vehicles, vans, transit / para-transit, school and city buses and provide drivers with more efficiency and convenience. The QRT™ systems are very flexible and can be mounted on track, floor pocket, swing arm, wall, floor or any type of manufactured seats, flip seats or barrier. The QRT™ is perfect in limited space conditions, retracts neatly out of sight when not in use and its hardware and belts are protected by a hard or soft cover case to prevent damage from wheelchairs or passengers.

With drivers spending a lot less time securing chairs and passengers and the QRT™ efficiently accommodating all seating arrangements, productivity is immensely improved. The QRT™ is your best investment ... specify QRT™ and save money ... as well as lives!

The QRT™ Q-8100-A1 Deluxe Retractor System

A complete wheelchair and occupant restraint system
The Q-8100-A1 will meet and exceed your expectations for speed, endurance and ease of use. The system includes 4-QRT automatic retractors, an all new adjustable and retractable lap / shoulder belt combo and 2 pin connector brackets. Meets all SAE J2249, ISO 10542 and ADA requirements. Crash tested at 30 mph / 50 kph.

Features
- Heavy-duty automatic retractors for tie down belts (4)
- Dual tensioning knobs on all retracting tie downs
- Hard cover case to protect belts not in use
- Self-tensioning tie down belts are interchangeable (front, back, left or rights)
- Quick and easy style speed hooks
- Easy to use red release levers

The QRT™ Q-8200-A1 Econo Retractor System

The Q-8200-A1 is a well designed complete wheelchair and occupant restraint system. The QRT Econo includes 4 QRT Econo retractors, a retractable and adjustable lap / shoulder belt combo and 2 pine connector brackets. Meets ADA requirements.

Features
- Single tensioning knob
- Interchangeable belts (front, back, left or right)
- Self tensioning
- Speed hook
- Red release lever

Indexes

The following pages are indexes we have provided to help you use this catalog. We want this Catalog to be the tool you reach for when you need parts for your School Bus Fleet. We have organized two different indexes for your convenience.

Part Number Index:
We have tried to sort all part numbers numerically to help you find the catalog page that will help you locate the particular part. However with thousands of numbers all with different combinations of letter and numerical characters sorting is difficult. For sorting purposes we have deemed any dash is neutral if it has more than two digits after it. Part numbers that begin with a letter are sorted after numerical parts numbers.

Description Index:
We have tried to sort by any word you might use in searching for a particular part. The descriptions are sorted alphabetically.

BOTH INDEXES ARE OUR BEST EFFORT, BUT SHOULD NOT BE CONSIDERED COMPREHENSIVE.

.........with literally thousands of parts please don’t assume that just because a part is not in the index that it is not in the catalog. If you see related parts check those pages as the part you are looking for may be there.

Also please do not assume that just because the part is not in our catalog that Chalk’s does not carry the part.

We add parts all the time...

IF YOU CAN’T FIND A PART PLEASE CALL CHALK’S AND ALLOW US TO HELP

School Bus Interior Seat Color Sprays

Designed exclusively for the school bus maintenance industry to eliminate ink and graffiti on all types of popular bus seating. When properly applied with Vinyl Prep, bus seats will look clean and brand new. Colors will not crack, split or peel off. Dries in minutes and may also be applied to ABS, PVC and Fiberglass materials. Gloss content can change by top coating with: UCV70 for a Modest Gloss, UK412 for a High Gloss or UCV69 for a Dulling Effect.

(See Color Number Chart to Left - Colors Below are an Approximate Match)
